Footnotes	
1. Supported items indicate testing status only. When approved by the database certification program, these details are reflected in the database support matrix. 2. Oracle RAC support will be included after certification by Oracle. 3. VxVM is not supported with native zones. 4. SFDB tools and SFAE are not supported. 5. Up to eight-node cluster is supported. 6. VCS products support additional application agents. The support for applications is expanded through quarterly Agent Pack releases. 7. Only a two-node SFCFSHA cluster is supported.	8. On NetBackup 9.1, when the FlashSnap Snapshot method is enabled with the IR option, the point-in-time rollback restore operations fail. The following message is logged: "Status 2800: Standard policy restore error." To resolve the issue, upgrade to NetBackup 9.1.0.1 or later. 9. Flash archive is not supported with RDE. 10. For details on Veritas InfoScale Operations Manager HSCL, visit: https://sort.veritas.com/sitemap/document/4 11. Not supported on x64 architecture.
