

## Custom Reports Using Data Collectors

Installation and Upgrade Checklist Report for NetBackup OpsCenter 10.0.0.1, SUSE Linux Enterprise Server 15, x86-64

---

### Important Notes

[Back to top](#)

**No new versions for NetBackup OpsCenter after 10.0.0.1**

**NetBackup 10.0 (including maintenance release 10.0.0.1) is the last NetBackup version to include NetBackup OpsCenter and OpsCenter Analytics.**

**Please refer to [NetBackup OpsCenter last release and transition to NetBackup IT Analytics FAQ](#) for more information.**

## Install Information

[Back to top](#)

### Procedure Overview:

Plan the NetBackup OpsCenter installation by reviewing the "About planning an OpsCenter installation" topic of the [NetBackup OpsCenter 10.0 Administrator's Guide](#).

In order to install the NetBackup OpsCenter 10.0.0.1, follow the installation instructions found in the installing OpsCenter topic in chapter 2.

To obtain the 10.0.0.1 release, please go to [Veritas Download Center](#)

Be sure to review the [Updates, Patches and Late Breaking News for NetBackup 10.x](#).

---

## Compatibility between NetBackup versions

[Back to top](#)

NetBackup does not support any scenario where a media server or client runs a software release update version that is higher than that of their Primary server except for single-dot or double-dot releases.

For more information, refer to the NetBackup Release Notes and the NetBackup Upgrade Guide: [NetBackup guides for Windows and UNIX, documents, download](#)

10.0	8.1	8.1, 8.0, 7.7.3
10.0	8.0	8.0, 7.7.3

Other general rules for compatibility:

- OpsCenter/OpsCenter Analytics must always be running the same or higher Dot-Zero or Single-Dot or Double-Dot release as the primary servers in the environment.
- All components (primary, media, client, console, and agent) on an individual system must be at the same version.
- Backup images created under an older version of NetBackup will always be recoverable with a newer version of NetBackup
- A new feature may not be functional until the primary, media and client are updated.
- Administration Consoles cannot be at an earlier version than the NetBackup server version they connect to via the "change server" functionality in the console

## NetBackup OpsCenter Operating System Requirements

[Back to top](#)

OpsCenter Analytics has the same Operating System requirements as OpsCenter.

Check the Operating Systems server table for the exact version of NetBackup in which OpsCenter server support started.

Veritas Cluster Server (VCS) support for OpsCenter 7.1 Server, OpsCenter 7.5 Server, OpsCenter 7.6 Server and OpsCenter 7.7.1 in cluster mode:

VCS versions 4.3, 5.0 MP3 and 5.1 on Solaris

VCS versions 4.2 RP2, 5.1 and 5.1 SP1 on Windows

Veritas Cluster Server (VCS) support for OpsCenter 7.7.2, OpsCenter server 7.7.3, OpsCenter server 8.0, OpsCenter server 8.1 in cluster mode:

VCS version 6.1 on Windows 2012 R2.

OpsCenter Agent and OpsCenter View Builder installations are not supported in a cluster environment.

32-bit View Builder binaries are used on 64-bit platforms.

OS	CPU Architecture	OpsCenter Server	OpsCenter Agent	OpsCenter View Builder
SUSE Linux Enterprise Server 15	x86-64	Yes	No	No

## NetBackup OpsCenter Binary Size

Approximate binary sizes for NetBackup OpsCenter Agent, Server, and ViewBuilder software.

OS - All Versions	CPU Architecture	Agent	Server	ViewBuilder
SUSE Linux Enterprise Server	x86-64	731 MB		

## NetBackup OpsCenter Physical Memory Requirement

OS/Version	CPU Architecture	Minimum Memory Requirement
SUSE Linux Enterprise Server 15	x86-64	8 GB

## Valid Characters in Host Names Requirement

NetBackup OpsCenter requires host names to comply with [RFC-1123](#), meaning only ASCII characters "a" thru "z", case insensitive, and digits "0" thru "9" and the hyphen character.

Oracle Linux 8	x86-64	64	64	Y	10.0
Red Hat Enterprise Linux 7	x86-64 <sup>[3]</sup>	64	64	Y	10.0
Red Hat Enterprise Linux 8 <sup>[5]</sup>	x86-64	64	64	Y	10.0
SUSE SUSE Linux Enterprise Server 12	x86-64 <sup>[6]</sup>	64	64	Y	10.0
SUSE SUSE Linux Enterprise Server 15	x86-64	64	64	Y	10.0

## Footnotes

1. Refer to File System Compatibility table for support details regarding the Windows 2012 NTFS data deduplication feature, and the ReFS file system.
2. Refer to File System Compatibility table for support details regarding the Windows 2016 NTFS data deduplication feature, and the ReFS file system.
3. NetBackup 10.0 supports FTMS with Emulex HBA LPe31002 in SAN Mode Configuration.
4. Refer to File System Compatibility table for support details regarding the Windows 2019 NTFS data deduplication feature, and the ReFS file system.
5. For installation prerequisites refer <https://www.veritas.com/docs/100045645>
6. Supported from SUSE Enterprise Linux Server version 12 SP3 and later.

## NetBackup OpsCenter Backup Product Support

[Back to top](#)

There are two OpsCenter products: Veritas NetBackup OpsCenter and Veritas NetBackup OpsCenter Analytics.

OpsCenter does not require any license and is included with the NetBackup Enterprise Server and Server products. OpsCenter provides single deployment configuration and user interface for monitoring, alerting, and reporting functionality. It provides monitoring, management and administration capabilities for NetBackup as well as operational reporting for other products as designated in the following table.

OpsCenter Analytics is the licensed version of OpsCenter. In addition to the features available in the unlicensed OpsCenter version, Analytics offers report customization, chargeback reporting and support for third-party data protection products as designated in the following table. The primary objectives of this product are to help organizations assess their compliance with business standards, e.g., service level agreements, and assist in effective business planning, e.g., future backup requirements via backup trend analysis.

Listed in the table below are the backup and archiving products and versions supported by OpsCenter and OpsCenter Analytics.

Backup Product	Version	Support Level	Analytics License Required
Veritas NetBackup	7.7 and higher versions	All supported NetBackup platforms by Remote Agent. Native OpsCenter agent for Windows 2008 (SP2 and R2) and Solaris 10 and 11. BCS customer are entitled to receive support for the legacy products until 2019. Refer to <a href="#">BCS Support Extensions Program - Covered Products</a>	No
Veritas NetBackup Appliance	Please check NetBackup Hardware Compatibility List for Appliance support information.	Data collection happens automatically by NBSL	No
Veritas NetBackup PureDisk	6.6.5, 6.6.3a, 6.6.1.2, 6.6.1, 6.6.0.3, 6.6.0.2, 6.6.0.1, 6.6, 6.5.1.2, 6.5.1, 6.5, 6.2.2, 6.2	PureDisk supported platform (PDOS) by the OpsCenter integrated Agent. You do not need a separate Agent to collect data from PureDisk. You can use the inbuilt Agent of the OpsCenter Server for data collection. To create or configure the data collector, select the Agent that is installed as Integrated Agent.	No

## NetBackup Future Platform and Feature Plans

[Back to top](#)

Veritas is committed to providing the best possible data protection experience for NetBackup customers on the widest variety of platforms, operating systems, databases, applications, and hardware. Veritas is continuously reviewing NetBackup's support of these items to ensure the proper balance of supporting their General Availability release, the very latest versions of new software, hardware and introducing new features and functionality and maintaining support for existing and older versions of these products and NetBackup functionality. While Veritas is continually adding support for new features, platforms, operating systems, and applications, it may be also necessary to improve, replace, or remove support in NetBackup for lesser used, older features, functionality, software, OS, databases, applications, integration with other products, and hardware that are no longer supported or nearing their end of support life from the manufacturer from NetBackup Compatibility Lists.

To better help its customers to plan for these upcoming changes to the support status of these items in NetBackup, Veritas will provide advanced notification as soon as possible as listed below. Veritas intends to list the older product functionality, features, hardware, OS, and 3rd party software products that will no longer be supported in the next release of NetBackup. If possible, these items are listed at least six months before that release.

The information below lists certain features, functionality, 3rd-party and Veritas products, applications, databases, and OS/ Platforms for which Veritas intends to replace with newer and improved functionality, or in some cases, discontinue without replacement. The last release of NetBackup to proliferate support of the item is provided. Technotes in the Notes column contain additional details about available replacement options. Where a major, minor or release update version is specified, the feature

or platform is supported through the last Maintenance Update (patch) of that release. Where 'All' is specified, it is supported for all versions or variations of the family of the relevant or supported platforms.

Check this site frequently for updated information for NetBackup. If an item listed below will cause significant business impacts, contact your Veritas Sales Account Team. Please note that the official NetBackup Support Lifecycle for your existing NetBackup product version won't be affected or altered in any way. For the official Veritas Support Lifecycle Policy of all NetBackup versions, see [https://www.veritas.com/content/support/en\\_US/terms/support-fundamentals.html](https://www.veritas.com/content/support/en_US/terms/support-fundamentals.html).

Information in the following table contains plans starting with NetBackup 7.5. For information concerning no longer supported platforms, consult the following section of the report.

Information in the following table was last updated on **2023-10-23**.

Date Added/ Modified	Feature/ Functionality/ OS/Platform	NetBackup Area	OS/Platform	OS/Platform Version	CPU Architecture	Last Supported Release	Notes
2022-04-19	All	OpsCenter	All	All	All	10.0.0.1
